Burkina Faso

Presenter

Dr. Yemi Akinbami
Executive Director
FARA

Moderator

H.E. Purnananga Ernest Yonli
Former Prime Minister
Burkina Faso

8th FARA
GENERAL
ASSEMBLY

VIRTUAL SESSION

24th - 25th November 2020

HIGH LEVEL PANEL [PLENARY PRE-EVENT]

Session Title: **Strengthening Partnership for Agricultural Research, Technology and Mutual Accountability: the case of the EU funded CAADP-XP4 Programme.**
Launch of the EU funded CAADP-XP4 component implemented by FARA.

**FARA's Perspectives in mobilizing Support to
African Countries in delivering on CAADP**
- Notes of the EU funded CAADP-XP4 Programme -

Dr Yemi Akinbami,
Executive Director of FARA

CONTENT

1. FARA's mandates in support to the AUC and its member states in strengthening STI and mutual accountability
2. Partnership Agricultural Research for Development (AR4D)
3. The major challenge of the Partnership for AR4D
4. The EU funded CAADP-ex Pillar 4 Programme as good case for strengthening AR4D Institutions

1

**African Union driven
mandates for strengthening
Science and Technology for
Agricultural Transformation**

A Continental Apex Organization coordinating AR4D in Africa

FARA serves as the entry point for agricultural research initiatives designed to have a continental reach or a sub-continental reach spanning more than one sub-region.

1. Advocacy

2. Capacity Development

4. Knowledge Management

5. Partnerships & Strategic Alliances

6. Coordination & Futures

FARA's Interventions Areas

Science Agenda for Agriculture in Africa

"Connecting Science" to transform agriculture in Africa

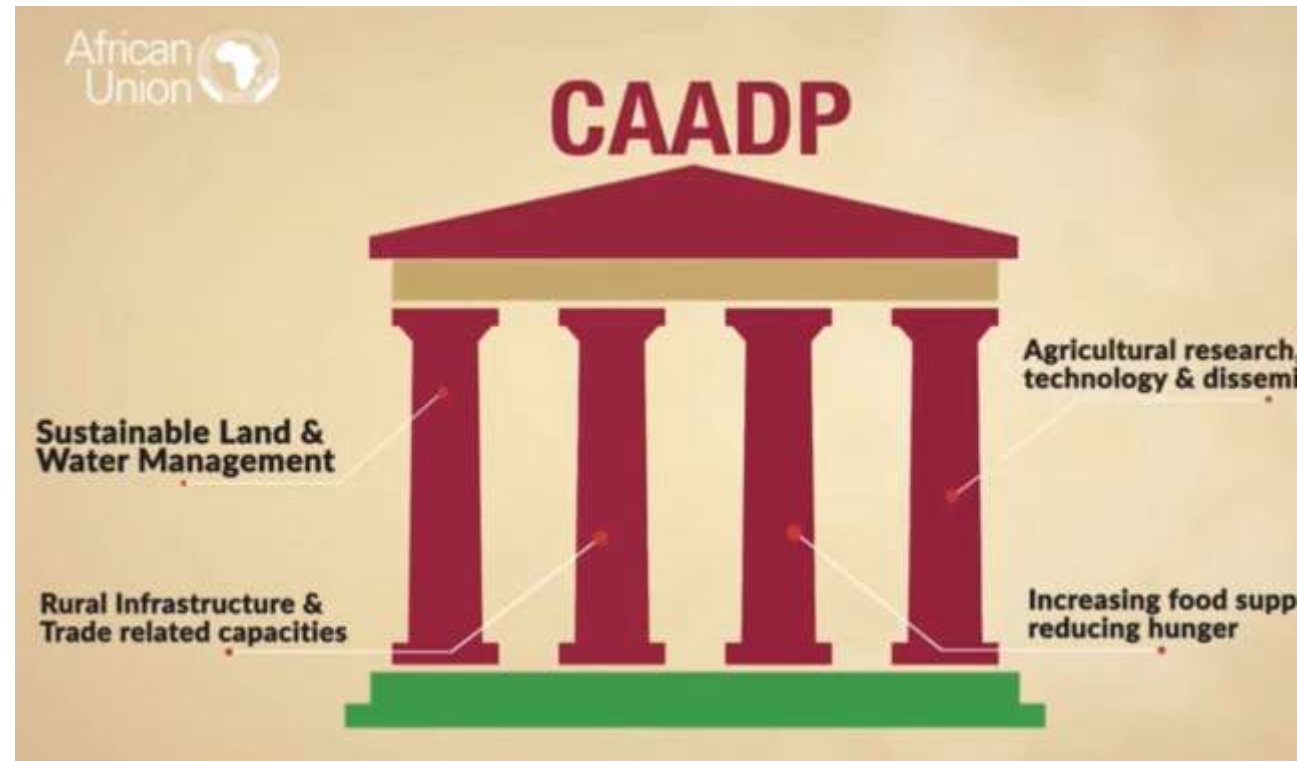

With the adoption of the S3A in 2014, FARA took a bigger role in supporting the AUC in delivering on CAADP Agenda... Leader of the CAADP-Pillar 4

From an advisory role under the CAADP-Pillar 4 on strengthening country capacity to increase agricultural productivity ...

... to further advocate for policy setting for country to prioritize investments in agricultural Science, Technology, and Innovation (STI)

**“We all need to work hard
to place tangible deliverables
to meet the expectation of the
African farming communities”**

~ H. E. Josefa Sacko

DROP IN PERFORMANCE FROM THE 1ST & 2ND BIENNIAL REVIEW

2017

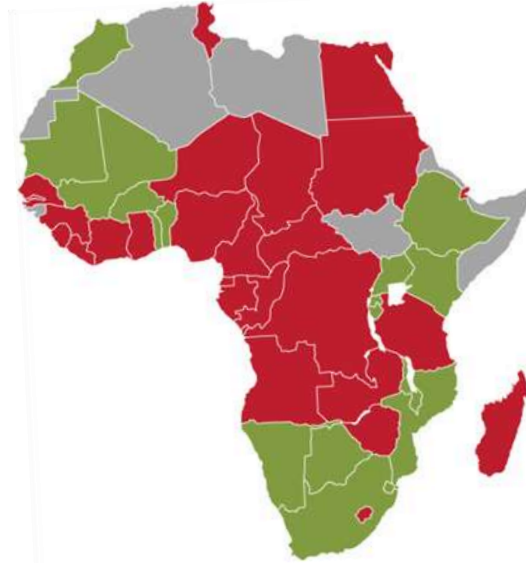

20

member states are on track

27

member states are not on track

3.60 avg. score out of 10
average score for the whole Africa, based on the 47 country reports. Malabo commitments were assessed against the 3.94 benchmark for 2017.

2019

4

member states are on track

45

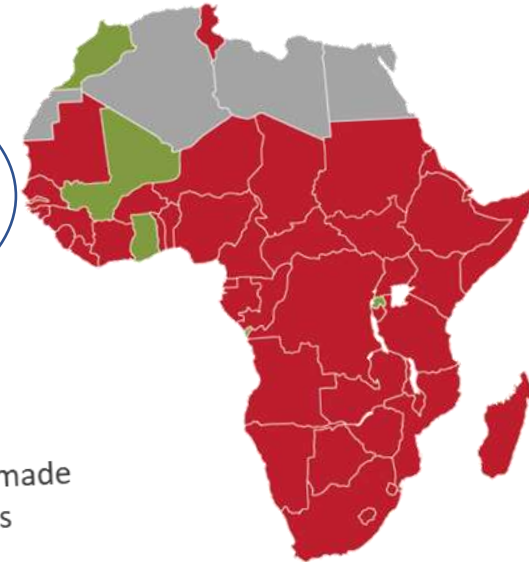

member states are not on track

36

Member states made positive progress

4.03 avg. score out of 10
average score for the whole of Africa, based on the 55 country reports. 12% increase in continent score.

● On track ● Not on track ● No data

FARA gives priority to assignments from the AUC ...

36 Countries have increased ↑ in score

45 Countries are still in RED

How to help those countries?

... with more attention to country performance for achieving Malabo Commitment

FARA gives priority to assignments from the AUC ...

1

Use of BR-
StaMP Tools to
generate
scenarios for a
desired score.

2

Prioritize
interventions
in the StaMP
Scenarios and
Build Best
Scenarios.

3

Mainstream the
Best Scenarios
in the NAIPs
Planning
process.

1

The Stay-on-Track for Malabo Programme (StaMP)

Provide CAADP-BR StaMP Modelling tools for
mainstreaming country performance into the
NAIPs planning process ...

FARA gives priority to assignments from the AUC ...

2

The Common African Agro-Parks (CAAPs)

FARA taking forward Amb. Sacko's vision on developing mega food production corridors on the continent ...

*Maize-
CAAP*

This infographic features a large, vibrant image of two ears of yellow maize. To the left, a dark green circular callout contains the text 'Yearly' and '20 million tons of maize'. The title 'Maize-CAAP' is positioned to the right of the maize image.

Yearly

20 million
tons of
maize

*Rice-
CAAP*

This infographic features a large, vibrant image of rice stalks. To the left, a brown circular callout contains the text 'Yearly' and '12.7 million tons of rice production'. The title 'Rice-CAAP' is positioned to the right of the rice image.

Yearly

12.7 million
tons of rice
production
